## CREDIT UNIONS

The statistical information provided in the following review and in supporting schedules and composite statements, relates to the twelve months period from July 1, 1951 to June 30, 1952, inclusive.

During the period ending June 30, 1952, four new credit unions began business and three entered into liquidation. This turnover represents a normal situation with respect to these corporations whose operations are primarily on a local level and accordingly are subject to local influences which have a definite bearing on the possibilities of growth and development.

The following facts and figures present highlights of the composite financial condition of the credit unions on June 30, 1952 and changes effective during the previous twelve months period.

### Total Assets

On June 30, 1952 the 459 credit unions in operation had total assets of \$93,114,970 which represented an increase of \$11,665,483 or 14.32% over the figure of June 30, 1951.

### Personal Loans

Personal loans to members which represent a major phase of the operations and objectives of credit unions chartered by the Commonwealth, continued the upward trend which was resumed after the conclusion of World War II as the unsecured and partially secured classification rose approximately \$1,997,224 to the present outstanding balance of \$23,269,430 and the secured group increased \$1,124,050 to \$7,367,510. Together these two classifications comprise 32.90% of total assets at the present time.

### Real Estate Loans

Holdings in real estate loans secured by first mortgages also continue to expand. The present outstanding balance of \$23,164,962 representing 24.88% of total assets reflects an increase of \$2,990,014 for the twelve months period.

### Investments in Bonds and Notes

Investments in bonds and notes, most of which are in U.S. Government obligations, increased \$977,552 during the year, but the present book value of \$16,403,669 or 17.62% of total assets continues to represent a substantial segment of these assets.

### Other Investments

During the current twelve months period, holdings in shares of co-operative banks increased \$2,540,992 to a present total of \$9,198,048 and deposits in savings banks and in savings departments of trust companies and national banks increased \$681,739 to an outstanding balance of \$3,376,562. Investments in bank stocks increased \$759,262 to a total book figure of \$1,773,449 during the same period.

### Cash on Hand and Due from Depository Banks

Uninvested assets represented by cash on hand and balances due from depository banks subject to check, increased \$584,626 during the year and the present combined total of \$7,382,518 equals 7.93% of total assets.

### Shares and Deposits

Outstanding share capital increased \$9,672,120 or 15.15% during the year to a present balance of \$73,509,351 which is held by 342,030 members. Deposits including club accounts, rose \$669,586 to a total of \$8,648,254.

### Capital Reserves

Reserves available for shrinkage and loss, as represented by the guaranty fund, undivided earnings, and the reserve fund, increased \$846,180 during the period and the present combined total of \$8,521,361 represents 9.16% of total assets.
